THIRD EDITION OF THE ICAO *RISK ASSESSMENT MANUAL FOR CIVIL AIRCRAFT OPERATIONS OVER OR NEAR CONFLICT ZONES* — DOC 10084

1. The Third Edition of the International Civil Aviation Organization (ICAO) *Risk Assessment Manual for Civil Aircraft Operations over or near Conflict Zones* — Doc 10084 has been published in English and is now available on ICAO-NET (portal.icao.int) under “Publications” and “Documents”. All other ICAO language versions will follow as they become available. The document will also be available on the ICAO eLibrary ([elibrary.icao.int](https://library.icao.int)) and on the ICAO public website: <https://www.icao.int/Security/SFP/Pages/Conflict-Zones.aspx>.
2. This document addresses the risk from both deliberate attacks and unintentional impacts on civil aircraft, in order to assist Member States and industry in making decisions on flying over or near conflict zones at cruising altitudes.
3. Doc 10084 has been amended to expand the advice for States and operators regarding the risks from surface-to-air missiles (SAMs), ballistic missiles, surface-to-surface missiles (SSMs), air-to-air missiles (AAMs), provide guidance on conducting conflict zone airspace closures and reassessing post conflict zone airspace. New guidelines for harmonization of risk assessments and risk-related communication have also been incorporated in this edition.

Issued under the authority of the Secretary General
