14 March 2019

REQUEST BY THE DEPARTMENT OF IMMIGRATION OF THE REPUBLIC OF FIJI CONCERNING FIJIAN EMERGENCY PASSPORTS

The Department of Immigration of the Republic of Fiji has notified the International Civil Aviation Organization (ICAO) that it is undergoing a process of introducing new electronic Machine Readable Passports or “ePassports”. During this process, there is an insufficient stock to ensure sustained processing of normal passports. Consequently, effective **14 February 2019**, the Department commenced issuing “Emergency Passports” in order to facilitate travel of its citizens. The emergency passport contains 12 pages, and is valid for one (1) year. A specimen of the Emergency Passport is attached, for ease of reference.

The Immigration Department of the Republic of Fiji has requested ICAO to disseminate this information to all Member States.

Attachment:

Republic of Fiji, Emergency Passport specimen

Issued under the authority of the Secretary General
