LAUNCH OF ICAO TRAINING WEEKS

1. As Member States continue to face challenges due to the pandemic, maintaining their compliance with ICAO Standards and Recommended Practices (SARPs) is essential. To raise awareness on this matter, ICAO's Global Aviation Training (GAT) Section is organizing a series of thematic Training Weeks throughout 2021. These virtual training events aim to enhance the competencies of aviation professionals in specific subject areas that are key to operating the air transport system amid the current situation.
2. Each thematic ICAO Training Week will open with a welcome ceremony followed by an interactive discussion about the latest trends, challenges, and best practices, moderated by a panel of relevant technical experts. After the panel discussion, the simultaneous delivery of ICAO training courses related to the theme will take place in various ICAO languages and scheduled in different time zones. Each Training Week will conclude with an e-certificate delivery ceremony upon course completion. Courses delivered during the ICAO Training Weeks are on a cost-recovery basis with a reduced fee for staff from regulatory authorities.
3. Seven thematic ICAO Training Weeks are scheduled in 2021, as follows:
 - a) Training Competency Development Week, 12 to 30 April
 - b) Airport Safety Training Week, 24 to 28 May
 - c) International Air Law Training Week, 5 to 9 July
 - d) SARPs Compliance Training Week, 6 to 10 September
 - e) CORSIA Verification Training Week, 12 to 15 October
 - f) Safety Training Week (November, dates to be confirmed)
 - g) Security and Facilitation Training Week, (December, dates to be determined)
4. You are kindly invited to disseminate this information to the various relevant stakeholders within your Civil Aviation Authority and within your State. For more information about the ICAO Training Weeks, including online registration, please visit the event website at <https://www.icao.int/training/Pages/icao-training-weeks.aspx> or contact AviationTraining@icao.int.
